Mutual Funds

Note : For anyone investing in mutual funds for the first time, it is important to note that unlike stocks where price changes every second, the NAV (Net asset value) of mutual funds change only once at end of every trading day. Orders placed to buy or redeem a fund are typically executed based on the NAV of the next trading day.

2. Menu

By clicking on Menu ----> Mutual funds, you can have access to Mutual Funds platform.

3. Dashboard

On dashboard screen you will get a Summary of your Mutual Funds holdings i.e. chart analysis with absolute returns, the invested amount & current amount. Next is Recommended funds. When you click on View all, you will land on Recommended fund page which is suggested by our Research team. And at the bottom of the Dashboard, you can view NFO i.e (New Fund Offer)
